WELCOME TO

MAK Pools LLC is a specialized and certified swimming pool supplies and service provider located in Dubai, United Arab Emirates.

We offer a full range of exceptional products, equipment, and services that extensively cover the hygiene, functionality, and aesthetics of swimming pools and backyards.

Our dedicated showroom houses swimming pool essentials such as pumps, filters, covers, lights, tiles, cleaning tools, testing kits, pool fittings, sanitizing chemicals, and other specialized equipment such as automatic pool robots, non-chlorinated systems, and more. In addition selected items are available on our online platform PoolStore.ae.

We also provide weekly swimming pool services for properties throughout Dubai; each visit consists of cleaning, inspection, and preventative care, ensuring chemical balance, clarity, and efficient functionality.

As members of the **Pool & Hot Tub Alliance (PHTA)**, and **The Swimming Pool and Allied Trades Association (SPATA)**; quality standards are never compromised, and customer satisfaction is our utmost priority.

WE OFFER:

General Supplies for All Pool Types

Pool Cleaners & Automation

Safety Covers & Fences

Annual Maintenance Packages

Leak Detection & Rectification

Old to New Restorations

Chlorine to Non-Chlorine Conversions

Chemical Sales & Delivery

Specialized MEP Consultancy

OUR BRANDS

Quality begins with the materials used, and make a considerable difference to the end results. We have therefore carefully selected and represent the following reputable international brands:

Glass Mosaic Tiles	General Supplies	Pool Heaters	Clarifiers & Algacides	Sand Filters
				
Bubble Covers	Pool Heaters	Porcelain Tiles	Underwater Lighting	Water Testing
				
Pool Robots	Pool Alarms	Pool Vacuums	Motorized Wheelbarrows	General Supplies
				
Pool Hoses	Safety Covers	Pool Pumps	Salt Chlorinators	Ionization Systems
				
Repair Solutions	Rechargeable Vacuums	Commercial Vacuum Heads	Above Ground Pools & Accessories	
				

GLASS MOSAIC TILES

With over 30 years of experience, Ezarri is one of the leading manufacturers of glass mosaics in the world. Their commitment to quality has set them apart to export 70% of their production to over 70 countries.

The unique JointPoint paneling system and range of models make Ezarri one of the best options for glass tiles.

In an exclusive partnership with MAK Pools, their vast collection is readily available in the United Arab Emirates.

POOL COPINGS

One of the most critical phases of the pool building process is coping design.

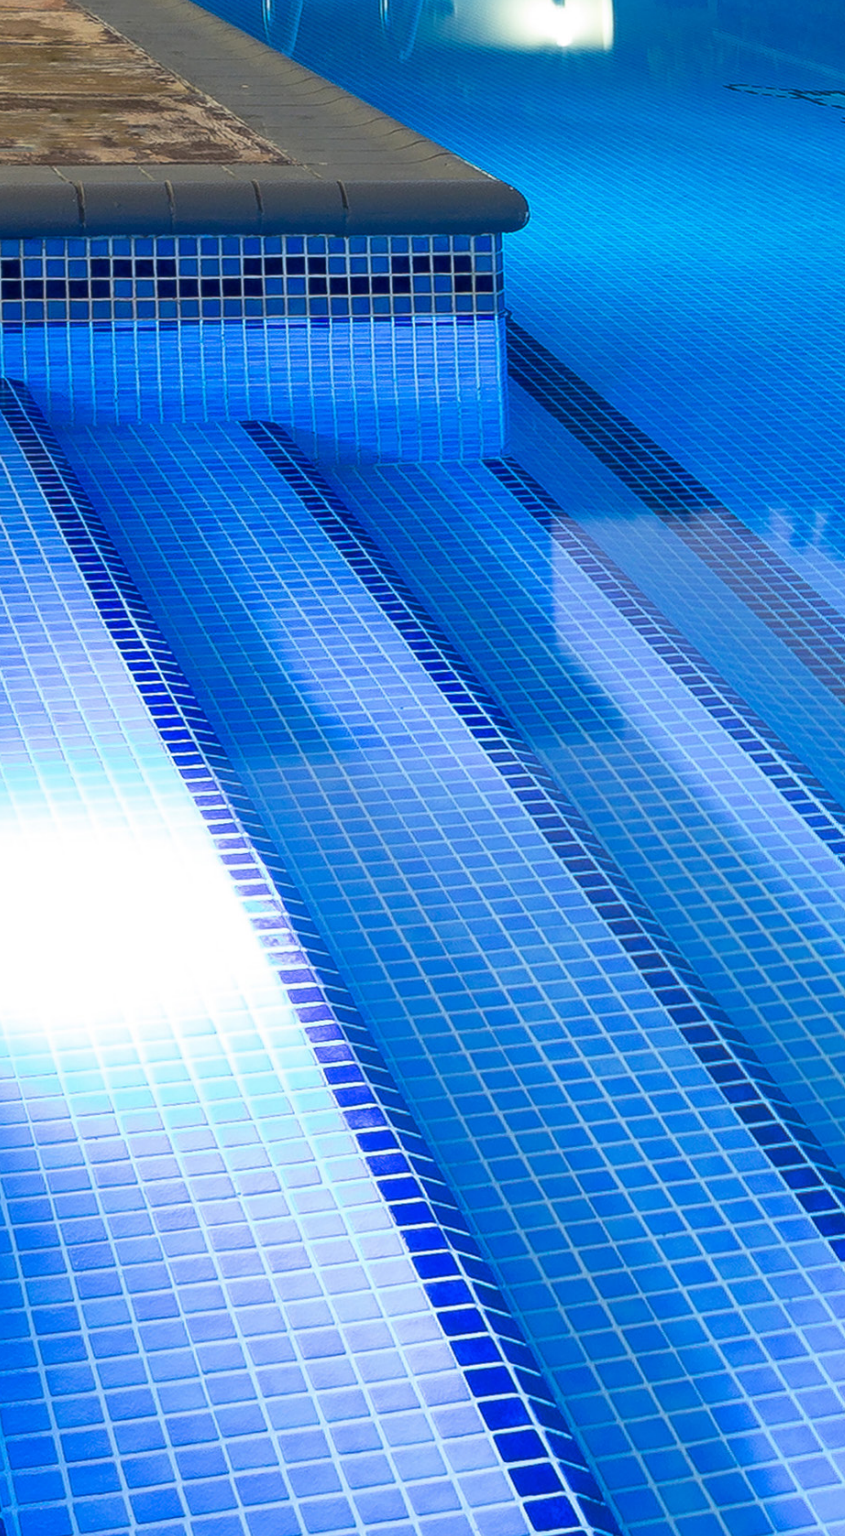

Through research with civil engineers, foremen, and masons, we have carefully developed a precast coping system that is simple and practical.

There are many options for the look and texture of the copings, allowing for a personalized final result that is easy to install and long-lasting.

POOL PUMPS

Saci Pumps is a company that specializes in the innovative design, production, and distribution of pumps, hydraulic systems, and water-management equipment for residential and commercial use.

For over 40 years, they have been focused on expounding marketing demands with high-quality products and reliable service.

www.sacipumps.com

Country of Origin - Spain

WINNER

Self-priming pump for swimming pools with large prefilter generating a very high filtering capacity.
Available from 0.5 HP to 3 HP

OPTIMA

Self-priming pool pump with prefilter and excellent hydraulic performance. Ideal for smaller pool installations.
Available from 0.25 HP to 1 HP.

NOVA/FEKA

Submersible pumps ideal for domestic use in filtration systems in isolated locations such as underground pump rooms, basements, garages, and for emptying pools.
Available from 0.28 HP to 0.75 HP.

MAGNUS

Extremely quiet, self-priming swimming pool pump with high flow motor engine capabilities ranging from 1450 rpm and 2900 rpm. Ideal for large filtration installations.
Available from 3 HP to 15 HP.

CF-4

Cast iron centrifugal pump with an inlet prefilter and motor power at 1450 rpm. Ideal for large filtration equipment.
Available from 3 HP to 25 HP.

HPE AIR BLOWER

Aluminum blower pumps that produce a constant stream of air bubbles designed for swimming pools, spas, water treatment, drying cars, ventilation, dust extraction etc.
Available from 0.6 HP to 4 HP.

SAND FILTERS

With over 50 years of experience, **Productos QP** is one of the pioneering companies that develop products for swimming pool treatment and care.

With their practical and complete range of high-quality sand filters, swimming pools of all sizes can experience highly efficient water purification and sanitization.

SALT CHLORINATORS

BSV Electronic SL was founded in 1984 as a family business; it designs and produces salt chlorinator units for public and private swimming pools – all made 100% in Spain.

Their commitment is to design products to disinfect swimming pool water without the use of harsh chemical products.

BS POOL

www.bsvelectronic.com/bspool

Country of Origin - Spain

WHY SALT CHLORINATION?

Lower concentration of chlorine

People who are sensitive to chlorine often report fewer irritations

Lower maintenance costs

Due to lower concentration of chlorine, maintenance costs are reduced significantly

Lower energy bills

BS Pool salt chlorinators operate on a lower electrical consumption

Lower salt than a tear drop

Pool water is softer on the swimmer's skin and swim-wear

Less frequent maintenance

Pool maintenance is more "hands-off" with the BS Pool system

N-BSsalt CHLORINATOR

Compact salt water chlorinator in a waterproof box that is easy to install.

- Lightweight
- Low electrical consumption
- Low operating temperature
- Produces 10-35 grams of natural chlorine/hour
- Run-time of 5,000 hours between electrolysis cell changes

EVOLINK CHLORINATOR

Touchscreen salt water chlorinator with integrated home automation functions.

- WiFi enabled connectivity
- APP available for IOS and Android
- Low weight and electrical consumption
- Produces 15-35 grams of natural chlorine/hour
- Run-time of 10,000 hours between electrolysis cell changes

CHEMICAL DOSING SYSTEMS

- Automatic pH and chlorine dosing device for regular water treatment
- For residential and commercial swimming pools
- Fixed on control panel with magnetic pumps and sensors

IONIZATION SYSTEMS

Aligator water purification systems are the world leaders in using water ionization techniques to purify water by eliminating algae and bacteria found in swimming pools and water systems.

Reduces reliance on pool chemical use by up to 80%

Offers substantial savings over conventional chemical treatments

Reduces maintenance time

www.aligator.com

Country of Origin - United Kingdom

Aligator uses natural elements to eliminate algae and bacteria in your swimming pool

Aligator Systems are:

Easy to use

Safe for allergy sufferers

Non-corrosive

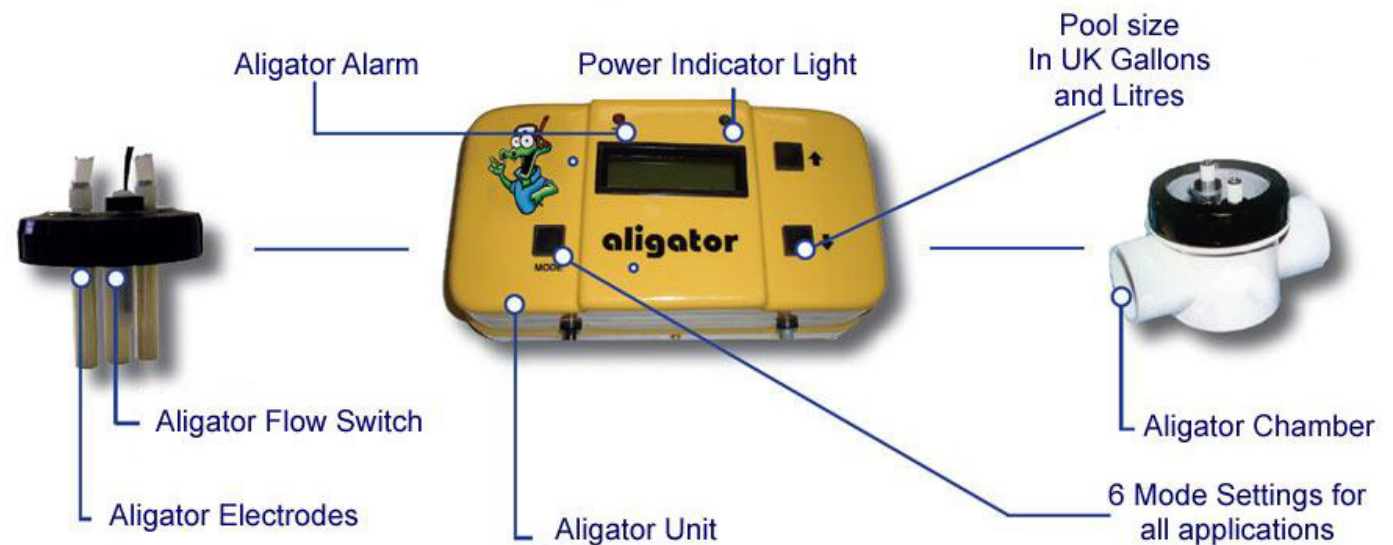

Environmentally friendly

Economical

How aligator[®] works...

- 1** Aligator works by harmlessly charging ions in the water which creates a residual disinfectant / algaeicide throughout the whole pool. No other system other than chemical saturation will do this
- 2** Aligator programmes itself. Once the size of the pool has been entered into its computer, it continuously monitors the condition of the electrodes and the pool water, and will alert the user if any attention is needed by a flashing a red light and an audio alarm.
- 3** In addition, stored in its data bank are the total working times of the pump, electrodes and main power supply.

POOL HEATERS & CHILLERS

Whether it's an indoor or outdoor pool, maintaining the right temperature in any season is essential.

We supply heaters and heat/chill pumps for various pool sizes.

www.pahlen.com

Country of Origin - Sweden

www.elecro.co.uk

Country of Origin - United Kingdom

*Heaters and Heat/Chill Pumps are sized according to location, surface area, volume, and bather-load. Call us for sizing details and assistance.

PAHLÉN 3-18KW

Pahlén's electric heaters heats the water easily and effectively. The materials used are acid proof stainless steel, Incoloy 825, titanium and thermoplastic. All electric heaters are designed for continuous flow with the lowest possible pressure drop.

- Electric swimming pool heater
- Models available 18kw
- Features built-in thermostat and overheating cut-off switch

ELECR0 EVOLUTION

The **Elecro** Evolution provides efficient, safe, and reliable heating to your pool.

The 'swivel' foot design allows easy placement on the floor or walls.

- Electric swimming pool heater
- Models available in 9kw/12kw/18kw/24kw
- Features panel mounted thermostat with analogue control

ELECR0 TITAN OPTIMA

The **Electro** Titan Optima is the ideal choice for a long-lasting swimming pool heater. It is easy to install even in limited spaces. The heater can be vertically wall-mounted using the bracket provided or stand on the floor.

- Electric swimming pool heater
- Models available from 18kw - 120kw
- Features panel mounted thermostat with touchscreen digital control

ASTRAL HEAT / CHILL PUMP MODEL AHP050

The **Astral** heat & chill pump is an economical solution for swimming pool and spa installations that require the optimal temperature control. This pump is proven to be 5 times more efficient than conventional heaters methods.

- Electric swimming pool heater/chiller pump
- Models available from 8.5kW to 210kW.
- Features efficient technology and compressor to cut down the running costs

BUBBLE COVERS

CID Plastiques is a company that specializes in bubble covers that help prevent algae growth, saves money, time, water, and energy usage.

A bubble cover will keep the pool clean and maintain the temperature of your pool so it is ready to use anytime. It is a great investment for every pool owner as it will prolong the swim season at a lesser cost.

When used with a heater or heater/chiller, a bubble cover helps to maintain the desired temperature. They are made from a durable polymer material with thousands of tiny sealed air bubbles.

They float "bubble side down" on the surface of the water when the pool is not in use which prevents dust and debris from entering the pool.

www.cid-plastiques.fr

Country of Origin - France

WHY SHOULD I USE A BUBBLE COVER/SOLAR BLANKET ON MY POOL?

Eliminates temperature loss

Longer swim season

50% savings on chemical usage

Reduces evaporation by 80%, saves water

Blocks debris and keeps the pool clean

FEATURES:

- Prevents evaporation
- Limits the use of chemicals
- UV resistant
- Flexible for easy rolling and winding
- Large-format width up to 5 meters
- 500 micron pool cover (overall thickness)
- Blue top layer for discreet look and black bottom layer to maintain the water temperature
- Reflects the direct heat from the sun to prevent algae growth
- Reduces filtration/pump time use by up to 50%
- Eliminates water evaporation by up to 98%
- Reduce chemical consumption by up to 70%
- Reduces energy consumption by over 50%
- Prevents debris contamination
- Cost-efficient in the long run
- Rollers available on request

UNDERWATER LIGHTING

Professional Pool Products offers the latest in LED lighting technology, the widest spectrum of color choice, and provides excellence in quality and unique design.

These LED lights are contemporary in style and come with remote control options with built-in transformers – making it exceptionally easy to use for pool builders and end-users.

Low voltage: 12 volts = 100% safe

PAR 56

Convert your halogen bulbs to Par56 LED replacement bulbs.
More energy-efficient
Fits any conventional niche
Longer-lasting

REMOTE CONTROL

RC04 STEP-DOWN TRANSFORMER + RECEIVER

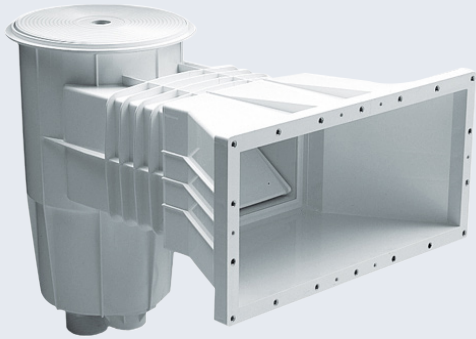

The RC04 takes care of all your underwater LED lights into one compact device up to maximum 220W total, be it a pool or a spa.

Equipped with a remote control and built-in receiver, making it easy and convenient to control all the lights and select from an array of colors.

It can also be used to activate two additional auxiliary items, such as a water feature pumps or garden lights.

INTERNAL FITTINGS

SKIMMERS

They are used to collect the surface layer of the water so it can be filtered and treated. They also come with an inner strainer basket to collect bulky foreign particles.

DRAINS

Anti-vortex and Anti-entrapment Drains to prevent any accidents that may occur from the excessive suction power of the swimming pool pump.

PIPES

PVC-U pipes for swimming pools. We have rigid and flexible options available to suit any pool needs for optimal water flow throughout the whole pump filtration system.

INLETS

Return inlets are used to return clean water into the pool. They should be placed on the wall facing the skimmers or at the bottom of the pool to prevent dirt from settling.

POOL SURROUNDINGS

WATER GAMES

Add life, beauty and excitement to a pool environment.

These features act as visual focal points and are incredibly fun for families.

SHOWERS

Stainless steel showers are ideal for any pool extension. Our stainless steel AISI-304 showers are rust-resistant and come with an exclusive anchoring system that is easy to assemble and install.

LADDERS

Swimming pool ladders are basic essentials for both commercial and residential pools.

Our range has models that come in 2, 3, 4 and 5 steps with installation accessories.

GRATINGS

UV-resistant and non-slip gratings for overflow channels. Our ranges comes with different sizes and corner pieces to suit any overflow pool.

AUTOMATIC POOL ROBOTS

Founded in 1983, **Maytronics** pioneered the field of automatic pool cleaning. It developed the world-renowned **Dolphin** robotic pool cleaners and, over the years, became the acknowledged market leader.

Their state-of-the-art products and technologies consistently set new standards in pool care, offering an unmatched combination of innovation and high-end aesthetic design.

All robotic pool cleaning systems are extensively tested in real-world conditions and conform to ISO 9001:2008 and CE Directives/UL Standards.

MANUAL POOL VACUUMS

The **Riptide Pool Vacuum System** is a high-powered, ultra-portable, battery-operated manual pool vacuum.

It is suitable for swimming pools, spas, lakes, ponds, and any water feature that don't have an independent vacuum point, or are simply too complex to connect to a suction pump.

Riptide
Pool Vacuum System

www.riptidevac.com

Country of Origin - United States

RIPTIDE SL POOL VACUUM

The Riptide SL vacuum has many innovative features such as a locking bag ring, stair roller, ten-year case warranty, and 2 storage bins. Having a power cable plugged into the cart, allows you to effortlessly coil your cable and prevents damage to the cable.

It also features a fully adjustable handlebar allowing you to achieve the perfect balance of the cart, no matter what size battery you are using. Use with any battery size from a 35-amp hour battery up to a group 29.

Included:

- One Pole Coupler
- One Leaf Rake/Brush Adapter
- One Steering Knuckle
- One Standard Pole Adapter
- One Standard Bag

*Battery and Battery Charger not included

RIPTIDE XP

Riptide XP is an ultra-portable pool vacuum and battery box combo. The battery box will hold a 35-amp hour battery (providing 4 hours of run time)

Included:

- Riptide Vacuum Head with 40 feet of cable
- 35 Amp Hour Battery Box
- 1 Standard Bag
- 1 Pole Adapter
- 1 Leaf Rack Adapter
- One Steering Knuckle
- One Standard Pole Adapter

*Battery and Battery Charger not included

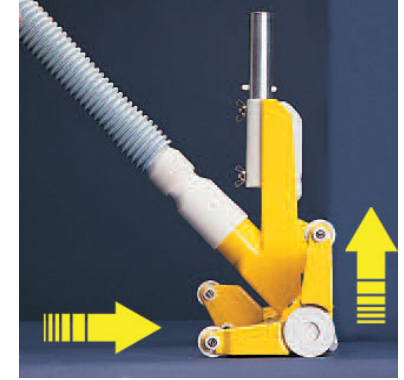

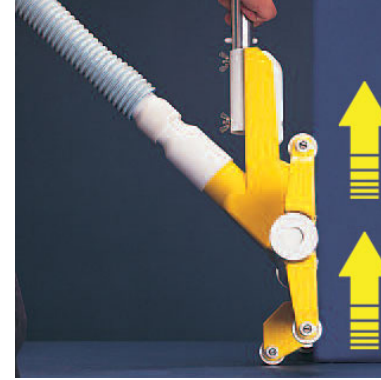

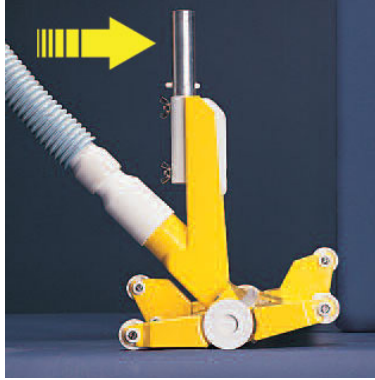

COMMERCIAL VACUUM HEADS

For over 30 years, the “big yellow vacuum head” by Fairlocks has been the leading manual pool cleaning system known for its robust efficiency. The unique design allows the wheels to lead the vacuum brush to climb along corners with ease. It effectively cleans on both vertical and horizontal surfaces with little to no adjustments throughout.

www.fairlocks.com

Country of Origin - United Kingdom

FEATURES:

- Ideal for both, large domestic and commercial pools with 1/2HP pumps or more
- Faster and effective cleaning with its streamlined shape, do more in half the time
- Central mounted brush effectively gathers solid debris into the suction stream
- Suitable for pools of various finishes (concrete, fiberglass, etc.)
- The special articulation carefully cleans corners, angles, steps, and other areas
- Available with 1.5 in and 2 in hose fittings
- Will only work with telescopic handles that accept butterfly nut fixtures and therefore will NOT work with telescopic poles that accept wishbone adapters
- Easy to re-build and replace the parts, therefore prolonging the use
- Spare-part packs available for purchase

NOTE:

- * This product is for concrete and fiberglass pools ONLY. Will not work with Intex or other above ground pools.
- * Will only work with telescopic handles that accept butterfly nut fixtures and therefore will NOT work with telescopic poles that accept wishbone adapters, if required the Fairlocks P27 Handle Adapter is advised.

FAIRLOCKS P27 HANDLE

The additional spare part accessory P27 Handle Adaptor is suited for the Fairlocks Commercial Vacuum Head allowing it to attach to standard quick release poles (wishbone).

RECHARGABLE VACUUMS

The Pool Blaster Aqua Broom® Recharge Pool Cleaner for Spas & Pools is a compact and convenient rechargeable vacuum that is ideal for above ground pools and/or tight spaces.

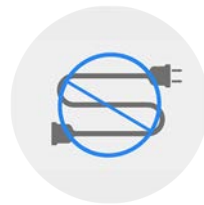

FEATURES & SPECIFICATIONS

- Run time: Up to 40 minutes
- Push Button ON/OFF Switch
- Includes (1) Reusable All Purpose Filter Bag
- Four piece sectional pole set included
- Attaches to any standard telescopic pool pole
- Quickly removes all debris, leaves, sand, and algae
- Cordless, No Hoses Needed
- Minimum operating depth: 12.25" at a 45 degree angle
- Includes USB Cable for Charging (USB Charging Adapter Not Included)
- Lithium powered, fully rechargeable in 4 hours
- Unit dimensions: 5.0 in x 8.0 in x 16.5 in
- Unit weight: 0.86 kg

WATER TESTING PRODUCTS

Lovibond has always specialized in scientific and technological products which make water analysis for pools and spas not just simple but also dependable and reliable.

For over 120 years they have concentrated on water purity and continue to set new standards in the market.

Pool and Spa water testing you can trust!

www.lovibondwater.com

Country of Origin - Germany

SD 90 Salt Tester (Digital)

Portable, hand-held water testing kit that measures the pool parameter of salinity (salt).

Includes:

- Meter in a robust plastic case with hanger
- 2 Batteries
- Lanyard
- Instruction Manual

Reagent Tablets

Tablet reagents make water analysis quick and easy. With precise dosing, long shelf life, and easy handling these tablets are the ideal indicators for water testing. Measure and check the water for chlorine, pH, copper, phosphates, calcium hardness, cyanuric acid, alkalinity, and other parameters with accuracy.

MD 200 6-in-1 (Digital)

Versatile and compact, the MD 200 photometer can be used in varied areas of water analysis. It combines high-precision optics, with long-term stable LEDs and high-quality interference filters ensuring quick and accurate results. This 6-in-1 portable, digital water testing kit tests for Chlorine, pH, Alkalinity, Bromine, cyanuric acid, and calcium hardness.

Includes:

- Lovibond MD 200
- 3 round, glass test tubes with lids
- 1 swab
- 1 stirrers
- 1 syringe
- 4 AA batteries
- 1 users manual
- Additional test tablets

Scuba II (Digital)

Professional and handy, the Scuba II water testing device is the ideal companion for accurately and quickly testing the most important parameters of your pool. 5-in-1 water testing kit that measures the following pool parameters: chlorine, pH, bromine, alkalinity, and cyanuric acid.

Includes:

- Scuba II In plastic box
- 20 DPD No.1 tablet reagents
- 20 Phenol Red Photometer tablet reagents
- 10 DPD No.3 tablet reagents
- 10 CyA-Test tablet reagents
- 10 Alka-M-Photometer tablet reagents
- Instruction manual
- 2 Batteries (AAA)
- Stirring rod

Pool Tester 2-in-1 (Manual)

The ultimate 2-in-1 portable water testing kit. This quick and easy tester measures chlorine and pH clearly and accurately.

All you do is scoop water into the test chambers, pop in a DPD1 tablet into the chlorine side Phenol Red tablet into the pH side, close the box, shake it and watch the tablets fizz and magically reveal the chemical balance levels of your pool.

Match up to the chart on each side and you'll know what does or doesn't need to be adjusted.

Includes:

- Pooltester in a sturdy plastic box
- Tablet reagents for 20 tests
- Instruction manual
- Stirring rod

NATURAL CLARIFIERS & ALGAEICIDES

Piscimar, a brand specialized in chemical products to treat water in private and commercial pools. Its range of products covers all the needs for a correct treatment and chemical balance of the water in your pool.

Piscimar products are of high-quality and spectacular performance to solve all kinds of water problems quickly and effectively.

BEHQ | 

www.behqsl.com

Country of Origin - Spain

GOLDENFLOK

Super concentrate brightener: gets water rid of grease, sun-tan oils, organic matter, pollen and all kind of particles by coagulation. These don't deposit in the bottom, they will be eliminated by the skimmer or drain, keeping the dirt captured into the filter. It prevents scum line formation, making it easier to clean. It is compatible with all kind of filtration systems.

CLEANPOOL TABLETS

Technical brightener, containing 12 tablets of 20g. Clarifies water in 24 hours and improves filtration performance. Can be used with any type of filter media, including diatomaceous earth and cartridge filters. Does not change the pH, alkalinity and water balance.

PHOS-OUT 3XL

Phosphates are the food of algae and they are generated in bigger amounts in pools treated with salt chlorination equipment or active oxygen. Phos-out removes phosphates from water, preventing the growth of algae. This product prevents the presence of algae, making it easier to maintain the pool.

ALGIBON

Multipurpose product of fivefold effect:

- It provides a bright blue color
- Great effectiveness against algae
- Repels water insects
- Increases water transparency
- Does not foam

CLEANPOOL SHOCK

This technical clarifier can perform effective shock treatments to recover very cloudy waters in a short amount of time (approximately 12 hours). Extraordinarily improves filtration performance. It can be used with sand, glass and cartridge filters. It doesn't change the pH or alkalinity and doesn't saturate the water.

SAVE CELL

The ideal, multi-functional product for the setup process and water maintenance for salt chlorinators.

- Protects cells from encrustation of salt
- Eliminates phosphates
- Clarifies water
- Extends the life of the cell
- Reduces water and electricity consumption
- Improves the production of disinfectant (significant financial savings)

FAST DOWN

This product prevents unwanted floating and diving insects and parasites from gathering on top of the pool water. It reduces the surface tension of the water and allows bugs to drop to pool bottom when they can be vacuumed away.

AQUA STOP

A product for sealing pores and stopping up small cracks in the surface or the hydraulic circuit of swimming pools and spas. Spectacularly efficient.

ACTIBON SHOCK

Accelerate the recovery of green water by enhancing the effects of disinfectants and active chlorine in waters with a high content of Cyanuric Acid. It also eliminates pink bacteria.

CELNET

For cleaning and descaling the cell of any kind of salt chlorinator without damaging or reducing cell life (does not produce toxic fumes). Immerse plates of the cell into PM-142 CELNET for 10 minutes and rinse thoroughly with water, dry plates and use as new.

ALGIBLACK

Rapidly eliminates all kinds of algae that grows in swimming pools. Especially suitable for combating black, yellow, and brown algae.

The pool can be used immediately after the product has been added to the water. It can be used as a shock treatment in pools with salt generators.

POOL ALARMS

Pool Patrol pool alarms are a great extra layer of protection and provide peace of mind so that you can get back to enjoying your pool.

These floating pool alarms can provide audible protection to just about any pool shape or size, and are a must for your backyard oasis.

www.poolpatrol.com

Country of Origin - United States

POOL PATROL PA-25 & PA-30

FEATURES

- Easy to install with no damage to your pool
- Adjustable sensitivity to reduce false alarms
- Low battery indicator
- Works in any type, shape, or size pool or spa
- Pool Patrol PA-30 comes with in-house receiver
- Pool Patrol PA-25 is a stand-alone alarm compatible with the PA-30 receiver (if multiple alarms are required)
- Multiple alarms can be used in larger pools
- Alarms can be used with a solar cover
- Will detect children, pets, or objects weighed 7kg or more

SPECIFICATIONS

- 9 volt battery powered
- Alarms at 85+ dB at 3 meters
- Monitoring range of 85 sqm

SAFETY FENCES

When it comes to keeping children safe, **BABY-LOC** removable fencing is a convenient and cost-effective option which is an added layer of protection to keep toddlers from gaining access to an unguarded pool.

The fencing is 4'6" high and is fitted with black/beige mesh, that does not obstruct any views.

BABY-LOC also offers the most reliable self-closing, self-latching gate available.

The unique latch uses a powerful magnet, which requires very little force to secure. It is also key lockable.

High-quality construction
with superior poly-coated open-weave mesh fabric

Non-obtrusive look
Neutral black/beige see-through mesh doesn't obstruct your view and blends beautifully with any view or décor

Strength and stability
High-quality black/beige polyester bonded thread

No rust or corrosion
Solid Brass double-ended latches with stainless steel spring-loaded trigger mechanism

Easy of use
A safety device that is not too difficult to use

SAFETY COVERS

LOOP-LOC has a reputation for building pool covers that are super strong, utilizing only the highest quality materials and workmanship.

It puts an unbreakable 'lock' on your pool to protect your family, while always staying tightly secured, anchored into the deck, and integrating visually with any pool environment.

LOOP-LOC's legendary, ultra-strong mesh is made with a dense weave that will block virtually all sunlight but still lets rain easily drain through. It is ideal for customers who want less light and debris on their pools, and have long-standing protection.

www.looploc.com

Country of Origin - United States

Quality Materials

The polyester bonded thread used in LOOP-LOC covers is higher quality than any competitors.

High break strength.

Made with double perimeter webbing and double-thick straps

Superior weight-bearing capacity.

Built with strong, non-corrosive 302-grade stainless steel springs.

Precise placement & maximum strength.

Large X-tackling on straps is sewn manually.

Superior UV stability.

Fabric made with 87% black yarn.

ABOVE GROUND POOLS & ACCESSORIES

Well known throughout the world, **Intex** is one of the leading distributors of above ground pools, spas, airbeds, furniture, toys, and more. People of all ages can enjoy spending time with their high-quality products designed for comfort, safety, and fun.

Maximize your home experience with an above ground pool! Whether it's rectangular, round, or square in shape, dark/light grey, dark/light blue, an Intex pool is bound to make a statement.

With additional accessories such as pumps, filters, cleaning tools, fittings, and more, above ground pool maintenance is made easy and convenient, allowing swimmers to enjoy a fresh and clean pool longer.

REPAIR SOLUTIONS

Since 1947, **WEICON** has been producing specialty repair products for industrial and residential use. Their range of items includes technical sprays, special adhesives, and sealants, and high-performance assembly pastes, and more.

Repair rather than replace. With their extensive range of easy to use products, anyone can effectively repair defective components rather than purchase new ones and ultimately save on their investments.

From production, to repair, and maintenance, their products are highly versatile for multiple purposes providing solutions to various professional backgrounds.

www.weicon.ae

Country of Origin - Germany

REPAIR STICKS

Specially developed repair sticks that achieve maximum adhesive power and simultaneous sealing effects on a variety of objects.

The repair sticks are available in the versions Aqua, Plastic, Stainless Steel, Aluminum, Copper, Concrete, Wood, Steel, and Titanium.

Weather-resistant and high-strength their efficiency is maintained under mild and extreme conditions.

UNIVERSAL SEALING SPRAY

WEICON All-round Sealing Spray is a sprayable plastic with strong adhesion for the sealing of leaks. It has been developed especially for the sealing of the finest cracks and seams, both indoors and outdoors.

It can be used for the sealing of many different things like gutters, sewage and drainage pipes, caravans, mobile homes, boats, roofs, windows, pool walls, pond foils, cell shafts, and ventilation shafts.

The spray is over-paintable, waterproof, and weather and UV-resistant. It protects metals against corrosion and is free of bitumen and silicone.

All-round Sealing Spray adheres to many surfaces like stone, metal, plastic, wood, enamel, and others.

AQUA-FLEX

WEICON Aqua-Flex Sealant – ideal for wet and moist surfaces; perfect for fixing loose mosaic tiles underwater.

WEICON Aqua-Flex Adhesive and Sealant is a strong adhesive, has outstanding aging stability, and is resistant to weathering, UV rays, freshwater and saltwater. It is free of silicone, isocyanate, halogens or solvents.

Aqua-Flex has an ISEGA certificate and can be used as an adhesive in foodstuff technology.

WEICON Aqua-Flex is an elastic adhesive and sealant on MS polymer basis for wet and damp substrates. It is suitable for the bonding of numerous materials such as metal, plastic, ceramics, wood, glass, and stone.

Aqua-Flex can be used for pipeline and cable work, tank, and apparatus engineering, in ventilation and air conditioning systems, gardening and landscaping, in sanitary installations and in all applications where silicones or products containing silicones are not suitable.

PIPE REPAIR KIT

WEICON Pipe Repair Kit – The set is designed for the emergency repair of defective and damaged pipes and pipelines.

It comprises one WEICON Repair Stick, a special repair tape made of fibreglass-reinforced plastic, assembly instructions, and a pair of protective gloves. The repair tape is impregnated with a special resin and activated by contact with water.

The Pipe Repair Kit can be processed without any additional tools and is used for the reliable and permanent sealing of cracks and leaks. It is very easy and quick to use and shows excellent adhesive properties, high pressure, and chemical resistance as well as temperature resistance up to 150°C. Within 30 minutes, the tape is fully cured and hard-wearing.

Due to the fabric properties of the tape, the resulting high flexibility, and the simple processing, the repair kit is particularly suitable for sealing leaks in bends, T-pieces or in spaces difficult to access.

It can be used on many different surfaces such as PVC, stainless steel, aluminum, copper, polyethylene, polypropylene, many plastics, fibreglass, concrete, ceramics, and rubber. This kit can be used on both dry and damp surfaces and can even be applied underwater.

The WEICON Repair Kit can be used in various areas of industry for the quick and easy repair of chemical, steam, process, and water pipes.

The set includes:

- 1 WEICON Repair Stick
- 1 Fiberglass-Reinforced Plastic Repair Tape
- Single Pair of Protective Gloves
- Assembly Instructions

MOTORIZED WHEELBARROWS

MUCK-TRUCK® The Worlds Best Selling Mini-Dumper - Power Barrow

The **Muck-Truck** can carry 250kgs/6cu ft and the Max-Truck can carry 350kgs/8cu ft. Both units will climb a 30 deg slope fully loaded. The machine is fitted with a genuine Honda GXV commercial grade 5.5hp engine. The peerless transmission has 4 forward and 1 reverse gears.

Product Features

- The Muck-Truck will pay for itself in approx 20 weeks in hire-shop charges
- Easy to maintain
- Uses a Honda GXV engine
- Increased productivity
- Multiple attachments – one unit, many uses
- Works on slopes where wheelbarrows can't

muck-truck

It doesn't cost the earth to move it!

Extension

Safety Features & Benefits

The Muck-Truck is fitted with a throttle lever that allows precise forward speed control.

Balanced weight distribution allows for easy tipping.

It is fitted with a parking brake and stops dead when the brake is released, should an operator fall or trip.

The Muck-Truck is highly recommended for health and safety, as it increases productivity without operator fatigue.

The rated carrying capacity enables you to move 3 times the load of the average wheelbarrow.

The bucket/skip release allows you to control the emptying of the load which is ideal for control tipping of concrete.

Muck-Truck, world leaders in powered wheelbarrows, offer diversity with a full range of interchangeable accessories.

The various attachments can be changed within seconds as work is ongoing.

The Muck-Truck and Max-Truck dumpers are fitted with a Honda GXV commercial grade engine & offers a powerful 4-wheel drive system.

SWIMMING POOL SERVICES

PROTECTING YOUR INVESTMENT

All swimming pools require maintenance and it is important that you entrust your investment in the hands of professionals who understand exactly what you need.

We have multiple, dedicated teams of service professionals who are ready to take on any backyard service task, either as a one-time visit or via a service contract.

Pool technicians will clean, scrub, and add chemicals - keeping the pool ready for your enjoyment.

- Pool, spa, & water feature servicing
- Leak detection, pressure testing, & rectification
- Pool restoration, re-tiling, and refurbishment
- Pump room relocations
- Upgrading halogen lights to LEDs
- Acid washing and re-grouting
- Equipment installation & repair

We can convert your traditional chlorine pool to better sanitization options such as salt-chlorination or ionization.

Technical troubleshooters are readily available, on-call, in case any urgent issues arise.

We will test your pool water to make sure everything is in order.

THE MAK POOLS AND SILVER FOX ADVANTAGE

Choosing MAK Pools means choosing unparalleled quality, design, and construction standards.

Expertise You Can Trust

- We are certified members of the **Pool & Hot Tub Alliance (PHTA)** & **Swimming Pool and Allied Trades Association (SPATA)**.
- All projects are led and managed by a **CSP (Certified Servc Professional)** accredited by the **Pool & Hot Tub Alliance**.
- Earning a **CSP** certification indicates a **superior level of knowledge and expertise** in the field.

SILVERFOX

High Caliber Partnerships

- Simply put, quality is our priority. We partner with leading international brands to ensure you get the very best - from pumps, filters, sanitization methods to ceramics, tiles and more - our results speak volumes.

Formerly the Association of Pool & Spa Professionals

"PHTA represents swimming pool, hot tub and spa manufactures, distributors, manufacturers' agents, designers, builders, installers, retailers and service professionals. PHTA offers pool and hot tub education and certification programs, provides valuable membership benefits, develops trusted industry standards and advocates for critical legislation."

From www.apsp.org

"SPATA, the Swimming Pool and Allied Trades Association were established in 1961 and today the role of the Trade Association is to work with companies involved in building swimming pools and spa pools so that they are working to British and European Standards. Members are expected to work to SPATA Standards and also to abide by a Code of Ethics set out by SPATA."

From www.spata.co.uk

MAK POOLS - A SILVER FOX COMPANY is led and managed by a **CSP (Certified Service Professional)** by the **Pool & Hot Tub Alliance**.

From excellence in performance to a command of the newest technologies and tools, a **CSP** must demonstrate a commitment to superior knowledge, skill, and performance, and engage in an elite level of experience, expertise, education, and ethical practice, as detailed below.

EXPERIENCE

The **CSP** must have at least five years of advanced level technical service, repair, and troubleshooting experience within the pool and spa industry.

EXPERTISE

The **CSP** must demonstrate a mastery of topics that range from health and safety, hydraulics, product performance, and energy efficiency.

EDUCATION

The **CSP** must pass a rigorous examination and meet continuing education requirements to stay current on state-of-the-industry technological advances, industry developments, and business trends.

ETHICAL PRACTICE

A **CSP** affirms his/her commitment to integrity, safety, and quality, pledging to adhere to and uphold the **APSP Code of Ethics**, comply with the highest business standards and practices, and make your safety, health, and satisfaction the top priority.
